Personal Profile Statement

A creative-minded individual proficient in a wide array of circumstances and environments. Analytical problem-solver offering a diverse skillset and unique qualifications in various skills and disciplines. Pertains a positive attitude and outlook on life ready to diversify their portfolio and work alongside an amazing team of enthusiastic individuals.

Education

Current
Bachelor of Information and Communications Technologies (Advanced) [Cyber Security]
Western Sydney University
Kingswood Campus NSW

Continued academic excellence, 'High Distinction' grades in all programming-related subjects.

Graduated 12/2021
Higher School Certificate
[Redacted] High School
NSW

HSC SUBJECTS COMPLETED

- Advanced English – 2nd in course
- Physics – 2nd in course
- Investigating Science – 1st in course
- Extension 2 Mathematics – 1st in Assignments

NOTABLE ACHIEVEMENTS

- Extension 2 Mathematics Assignment submitted to NESA board of studies as a star example
- Consistent acclaim for academic talent and dedication by all teachers
- Worked with Head of IT to discover and patch several severe security vulnerabilities within school computers and networks that affected a large number of schools. The exploit found was requested to be sent to NESA for further review due to its severity and ubiquity
- Assisted with the development and implementation of several STEM courses and workshops to encourage younger students and women to get involved in STEM
- Attended the IABCA business awards ceremony under invitation
- Completed 2023 Winter Scholarship
- Winner for Launchpad 2022 Accelerating to Net Zero and 2023 Digital Healthcare Challenge

Experience

04/2018 – 11/2018
Frontend Developer
Elixr Solutions
Online

- Received training and employment as a frontend developer for a small start-up company in Australia developing a modding hub for several smaller games under an Agile-Based methodology
- Gained experience working alongside a team of experienced programmers, with the senior engineer having 30+ years of experience
- Learned a wide variety of team communication skills from my interactions with managers and employees as a team member

03/2022 – 12/2022
Team Member - FSTM
KFC
NSW

- Worked hard to learn required tasks quickly to maximise performance
- Followed production orders and company standards to exceed quality scores on a consistent basis
- Looked for ways to go above and beyond job requirements
- Rotated through series of different stations based on team needs
- Assisted newly hired team members by explaining company procedures and safety requirements

07/2022 – Present
Biotechnology Machine Learning Researcher
Western Sydney University
Kingswood/Hawkesbury Campus NSW

- Working with a team of experts in genetics and biology to develop new methods to process data
- Work with colleagues to deliver high-quality reports
- Self-motivated to research, learn and develop new cutting-edge technologies

12/2022 – Present
PASS Facilitator
Western Sydney University
Parramatta Campus NSW

- Interact and aid students in developing study techniques and gaining confidence in their subjects
- Preparing interactive and exciting content to aid in the students' learning
- Professional communication skills
- Professional Development to represent the university, including appropriate conduct and attitude
- Strong social abilities and ability to create an enthusiastic atmosphere among students

Skills

General Skills
(Contact me <u>below</u> for more on how I'm a good fit for your company!)

- Excellent with one-on-one communication
- Extremely fast learner, proficient with pattern-recognition
- Great attention to detail – can see both the big picture and the smaller-scale needs
- Outside of the box thinker
- Mathematically and logically inclined
- Open-minded and accepting of others regardless of ethnicity, gender, sexuality, or religion

Miscellaneous Certifications

- Trained and certified in peer mediation, a course designed to teach developing leaders how to act as a neutral third-party to resolve conflict between peers and adversaries when a conflict is unable to be resolved between the two parties individually
- Completed the hybrid virtual internship and cultural immersion under New Colombo Plan Mobility Program to India
- Participated as a volunteer and guest speaker in the Western Sydney University 2022 Summer Scholarship Program
- Participated as a paid researcher and presenter in the Western Sydney University 2023 Winter Scholarship Program
- Professionally trained and experienced facilitator, over a year of experience as a student tutor.
